AVIACATION

"Some Learnings Are Fun"

Introduction: At Kambill Systems we are driven by the Technologies that can change the way the World works. Established in 2013 and lead by young entrepreneur, we offer World class Simulator & Simulation software solutions for all segments, Automotive Simulators, Customizable simulator range, UAV's/Drones (Unmanned Aerial Vehicles), GIS Mapping Software, Aircraft Spare Part solutions, AMC services and Training/Consultancies. We are the company that is bringing world leaders in simulation technology, Drones and Mapping solutions under one umbrella.

To take one step ahead AVIACATION (A unit of Kambill Systems) brings first time in organised India and Global market "DRONE WORKSHOPS". As Unmanned Aerial Vehicle Systems (UAVS) are the most advance and rapidly growing Aviation Technology, used today in Mining, Real estate, Construction, Survey, Defence etc. We invite you on board to take this fascinating escapade:-

Workshop Modules:

- Application of Drones.
- Fundamentals and working of fixed wings and quads.
- Troubleshooting.
- Mission Planning Software (PIX4d, GS Pro, Drone Deploy) – Autopilot.
- Advantages of different Mission Planning Software.
- Hand-On Flying experience.

- **RULES AND REGULATIONS(FAA)**
 - For any flying object weighing more than 0.55 pounds/ 250g, you need to register it with its unique ID and the owners ID.
 - Always fly under 400 feet (120 meters).
 - Always fly within sight at all times, or use a spotter to help you keep an eye on your drone so that you don't lose it at any point of time.
 - Never fly near the airports. Within 5 miles (8 kilometers) is strictly prohibited, unless you alert the airport authorities.
 - Never fly over crowds or people.
 - Fitness for flying the drone is also compulsory, the operator should be free from the influence of alcohol and drugs while flying.
 - Drone should not be flown in bad weather. In poor visibility, rains and heavy winds, flying should be avoided.
 - While flying the drone, the flyer should always respect others privacy and property.

- **DO's and DON'Ts**
 - **Do** brief your surrounding people before you fly on what you are doing with your legitimate reasons.
 - **Do** secure any sensitive data against loss and theft if you have any.
 - **Do** abide by the rules and regulations every time you fly.
 - **Do** a pre-flight checklist before Take-off every time.
 - **Do** fly in line of sight or use a spotter.
 - **Don't** fly over other people's private property.
 - **Don't** fly over the prescribed altitude.
 - **Don't** fly near the airports.
 - **Don't** gather personal data for no reason.
 - **Don't** harass people with your drone.
