

JOB DESCRIPTION – MANUFACTURING PLANT

(A) Trainee: AutoCAD (Designing in Manufacturing Plant)

No of Vacancies: 5

CTC: 2.00 – 3.5 Lac/PA

Skills Required:

- Knowledge of Thermodynamics, IC Engines
- Turbine working knowledge

(B) Position: Trainee – Manufacturing Plant

No of Vacancies: 10

CTC: 3-4.5 Lac/PA

Skills Required:

- Designing and testing of New Jigs
- Paint shop working
- Progressive Press Tool working
- To correct the Shank Position using AutoCAD
- 3D Model Drawing in solidworks
- Knowledge of 4 Plate single cavity handle injection mold
- To manufacture 4-plate single cavity hand injection mold for a clamping knob
- 3D model – solid works

Software skills: AutoCAD, Catia, PTC creo, solidworks, NX- Unigraphics, Ansys, MS Office.

Tool Skills: Milling Machines

Lathe Machines

Grinding machines

Various Measuring equipments and hand tools.

JOB DESCRIPTION

Position: Graduate Technical Trainee in Designing/Robotics

No of vacancies: 10

CTC: 3.00-4.5 Lac/PA

Educational Qualification: B.Tech (Mechanical Engineering)

Skills Required:

- a) Knowledge of Instrumentation on standards, Foundation Field BUS System
- b) MCCB,SDF - Fault Capacity protection
- c) Scada/HMI
- d) PLC – programming. PLC somatic S7, 200,300
- e) Scada
- f) GSM – controlled Robot using S051 Micro controller
- g) Keil Software
- h) Catia V5 – R – 19
- i) AutoCAD – 2010
- j) DC Drive (6RA70)
- k) AC Drives(Micro master – MM4, Master Drive – VC)
